

Dear Year 6,

I hope you are all safe, well and have had a lovely Easter. We were very blessed to have such beautiful weather. I'm sure you all managed to get outside and have lots of fun in the sunshine, I certainly did 😊

It would be the start of the Summer Term tomorrow, unfortunately we can't be together, so I wanted to write to you to talk about some of the things I'd like you to do.

If you haven't already seen, I have planned your work in English, Maths and RE for next week and tasks for Science and Geography for the next half term. An overview of the work is on the School Website and all the information you need to complete it is either on the sheet or on the accompanying power points.

My suggestion would be to try and set a timetable everyday, a bit like school. Allocate time for Maths and English in the morning and the same for Science, Geography or RE in the afternoon each day.

We are continuing with our Percy Jackson topic in English. I have given you the link for a free online book so you can read as we did in class. This week we will be focusing on Chapter 10. Please read this carefully and complete the tasks I have set. I am sure you will enjoy these. Try to remember our previous learning and use the strategies we would use in class to complete the work.

In Maths we are using White Rose tasks. We often use these resources in class so you will be used to these. Make sure you

complete the first sheet and attempt the second and third sheet if possible. The more you can do, the better! This week our focus is Ratio and Proportion. I have also set tasks on Education City for you to complete. Don't forget to use 'The Learn Screen' if you're unsure. They certainly are a great help!

I hope you also enjoy the Foundation Subject Tasks I have set you on the Chilli sheet. In Geography we're continuing with The Rainforest and in Science starting The Circulatory System. You are able to choose what you'd like to complete, just follow the instructions and have fun creating 😊

Mr Peniket and I would also like to say a big thank you to the children who have sent us photos, power points and videos showing us what you've been up to. We've been so impressed by all the work and beautiful crafts you've been doing. The real highlight for us is seeing you guys, smiling, happy and working incredibly hard. We miss you all very much and it brings us so much pleasure to see you and your work. As always, we're incredibly proud of each and every one of you.

I think that's all for now. Please try your hardest with the work that has been set. I know it's hard doing it at home but you're all brilliant and I know you will do your best. Remember to continue to send photos of the work you are completing and of yourselves also.

Please take care and remember to look after yourselves and your families,

God bless,

Mrs Lawson x
