Wednesday 13/1/21 - Area of rectangles

Tutorial Video: https://vimeo.com/480242752

Key vocabulary:

Measure

Perimeter

Rectangle

Rectilinear

Ruler

Area

Area = length x width

Fluency Qs from Video:

Pause the Video and answer the questions when told to do so. The answers will be displayed after too so no peeking! ☺

1) ___ cm = 90 mm

2) $30 = 6 \times$ ___

3) $5^2 =$

4) $100 =$ ___ ^{2}

Main Questions:

Have a look at the attached worksheet. I haven't selected any particular questions, just work your way through!

Remember, the last two or three questions tend to be more challenging if you are up for it (which I know you will be!).
