

Really Wild!!

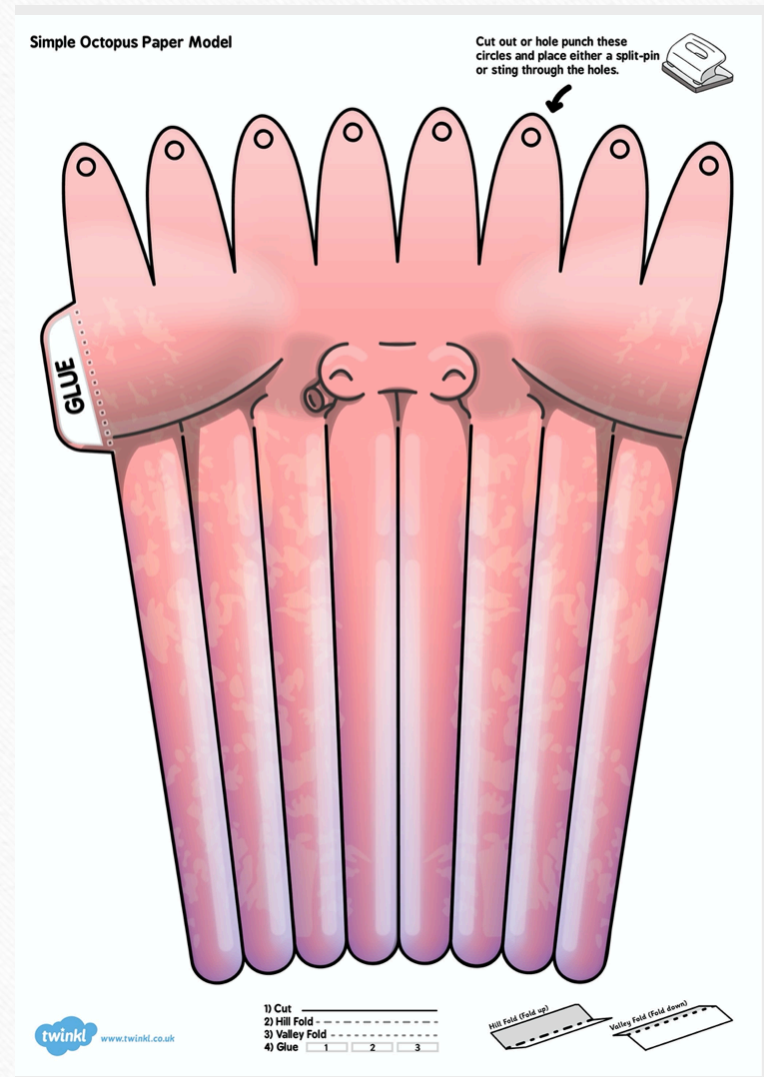

Under the sea

Watch this video on our remote learning page!

Make your own octopus. You can print this from our remote learning page.

Join Andy for a wild
workout under the
sea!

Find, colour and count the sea creatures. You can print this from our remote learning page.

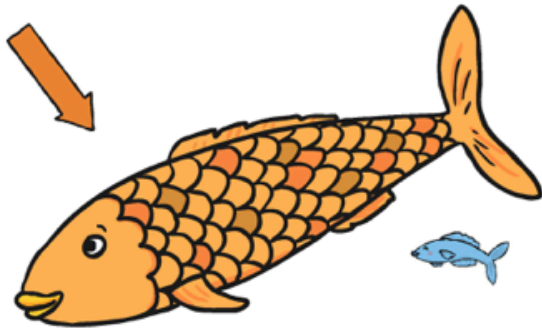

Find, Colour and Count

Search for the sea creatures, then colour and count them!
Put your totals in boxes below.

The fish is big.

The fish is big.
... ..

The fish is big.

If you want to do some extra reading you can find this on our remote learning page.

The Great Pacific Garbage Patch

Watch this episode of Go Jettors to learn more about the Great Pacific Garbage Patch -

<https://www.bbc.co.uk/iplayer/episode/b0b5h03j/go-jettors-series-2-35-the-great-pacific-garbage-patch>

Lots of plastic is thrown away and ends up in the sea.

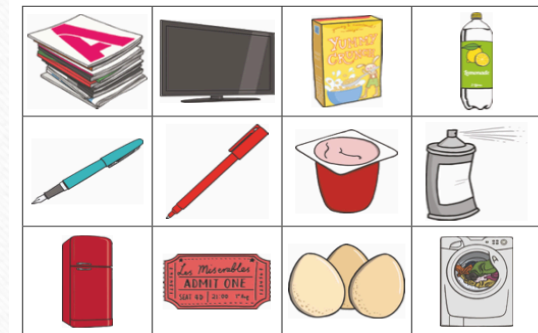

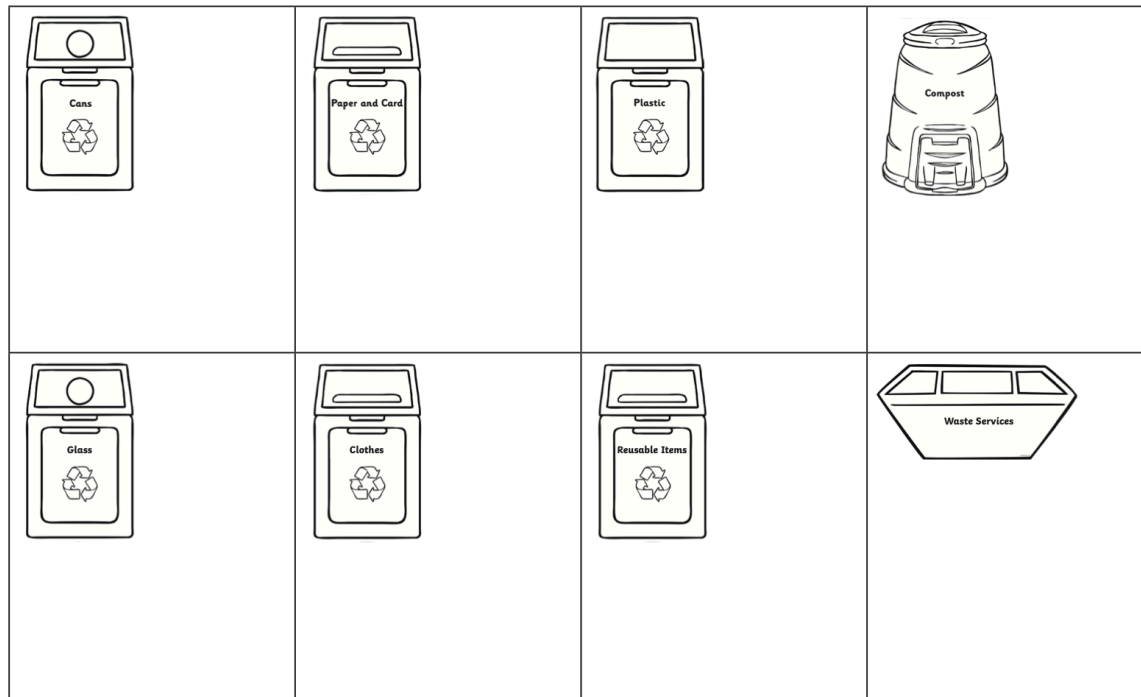

Sea creatures can get tangled in the plastic.

There are huge patches of plastic rubbish in the sea. One is called the Great Pacific Garbage Patch and it is as big as a country!

Talk a grown up about the things you can recycle. Is there more you could recycle? Can you reuse things rather than throw them away?

Can you sort these pictures into the correct box?

Create a small world under the sea scene. Add some small world sea creatures along with shiny, blue material, strips of green cellophane, glass pebbles, shells and sand. You could use the picture above as your background.

Here is another idea for an under the sea themed small world craft. If you don't have any shells you could try making some using playdough.

Some more craft ideas! Try making a paper chain octopus, a handprint crab or a plate and streamer jellyfish.

If you would like to hear some interesting facts from Marina the mermaid, follow this link

Would you like to make your own mermaid?

We have put a link to a very famous piece of music below. What instruments can you hear? What does each part of the piece of music remind you of?

Could you dance in time with the music? You could move like a jellyfish, or flap your wings like a Manta ray.
