MATHS

Quick Recall Maths

Use the sheet on the next page to practise your rapid recall of key number facts.

What to do

Start with column 1. Can you complete all the calculations accurately? Keep practising until you can. Then set yourself a time limit. Can you complete them all in 1 minute? Or less? Keep practising until you can complete these calculations really quickly. Then move on to the second column and keep practising until you can get these questions correct in a minute or less. Then move on to the next column and the next. By doing this, you will begin to memorise these key facts which will help with all your number work as you move through the school.

Quick Maths 1 (Addition to 50)

1) $10 + 3 =$

2) $20 + 6 =$

3) $4 + 20 =$

4) $9 + 10 =$

5) $3 + 30 =$

6) $11 + 4 =$

7) $14 + 5 =$

8) $7 + 13 =$

9) $3 + 15 =$
